

Timing Is Everything.

MARC HUTLET
SEEDS LTD.

Corn harvest doesn't have to hinder your schedule for fall tillage and nutrient application.

That's where we can help.

P7527AM

In environments yielding over 140 bu/ac, this hybrid beat the leading competitor 73% of the time. The best part? It's only 2150 heat units.

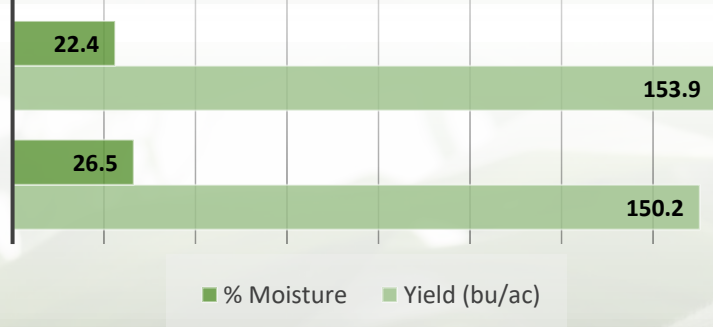

P7527AM

NEW P8234AM

Our newest 82 CRM hybrid offers maximum yield potential, and a superior agronomic package.

Top-yielding hybrid in all 72 trials in 2018 with 202.5 bu/ac at 23.8% moisture!
